

CLINICAL OUTCOMES

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription-drug benefit plan. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

PLEASE NOTE: Brand-name drugs may move to nonformulary status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription-drug benefit programs; check your benefit materials for the specific drugs covered and the copayments for your prescription-drug benefit program. For specific questions about your coverage, please call the phone number printed on your member ID card.

A	amiodarone hcl	aubra eq	bisoprolol-hydrochlorothiazide	calcium acetate (phos binder)	ciprofloxacin-fluocinolone pf ^{QL}
abacavir sulfate-lamivudine ^{QL, †}	amitriptyline hcl	aurovela 1.5/30	blisovi 24 fe	CALQUENCE ^{QL, PA, †}	citalopram
